Tom,

Thank you for your work on a proposed settlement house - Peace Corps House – in Washington, DC and I am pleased to voice my support for such an initiative.

From your documents and other research, I have been learning much about settlement houses. The opportunity you have described for Peace Corps House in Ward 8 reflects the commitment of the Peace Corps Community to have an impact in our local communities, particularly underprivileged neighborhoods where returned Peace Corps Volunteers are willing and able to continue to serve after our Peace Corps assignments abroad.

Please be assured that the National Peace Corps Association stands ready to assume a leadership role on this initiative in partnership the Peace Corps agency and local government officials and professionals.

Thank you for your bold and visionary leadership in our Peace Corps community. We all look forward to Peace Corps House.

Best wishes,

Glenn
