Tom,

It's exciting to hear the developments of a Peace Corps House in DC. I am in full support of your efforts to develop a Peace Corps Café that would offer the community free expression of ideas, training and exhibitions similar to the Press Café we developed in Batumi, Georgia.

As I expressed to you, whatever service I can provide in the design, development and initial set up of the Café, as a part of the team, would be my pleasure.

Please keep me in the loop and let me know how I may help.

My phone: 702-580-8822.

Craig
