

# Press Cafe

---

– The creation of the Press Cafe in Batumi is a creation of an environment to foster discussion and awareness of social, intellectual and political freedoms in Georgia. The Press Cafe is for journalists and news providers to have a comfortable place to talk about their profession. It provides communications professionals access to each other and the tools necessary to keep up with the changing media environment. It makes available in Batumi, a place to discuss ethics and free speech. It is open to the public to learn their rights and freedoms afforded to them under the constitution and democratic principles. It brings in experts in various fields to raise the level of awareness in important issues.

We want to make it a friendly inviting place for everyone. We want to help the development of an aware, free society in Adjara. The Café will provide excellent food and service to make people want to frequent the café often. The Press Café will be an enjoyable place for art, literature, music, films, and food and wine. The emphasis is on enjoyable. The more people frequent the café and join in on the discussions the more they will be aware of the freedoms available to them.

Through discussions, presentations by experts, films, interaction with journalists, availability of internet (Wi-Fi), interviews with leaders and more the Press Café will give the community something it has not had up till now. A place where people in the region can regularly meet to express their views, learn, and debate their values, government, and future... freely.

The Café will offer signature dishes and desserts, included is wine, beer, cocktails and various coffee drinks from around the world.
